DLC questionnaire in support of ANSI C137.9 Configuration Report

1) Do you require post-installation inspection?
   a) Yes for every NLC project
   b) Yes for some NLC projects
   c) No
   d) No NLC incentives offered

   - Discussion
     - How do you verify that NLC System configuration is appropriate to meet project goals?
     - Pain points?
     - Best practices?

2) After installation and start-up of each project, do you require any NLC configuration data?
   a) Yes for every project
   b) Yes for some projects
   c) No
   d) No NLC incentives offered

   - Discussion
     - What parameters do you get?
     - Any parameters you need, but can't get?
     - Examples

Occupancy Sensor Settings	Wall Station Settings
High End Trim Settings	Scene & Preset Settings
Daylight Harvesting Settings	Demand Response Settings
Timeclock Settings	3rd Party Integration Settings

3) Do you have a preferred format for NLC configuration data?
   a) CSV   b) Excel   c) PDF   d) Anything is ok   e) Other (explain)

4) How does the availability of information about a NLC system compare to that of other networked control systems you may offer incentives for, such as HVAC?
   a) Is there anything you particularly like or dislike about how those other systems provide such information?
